The Department of Para - clinical Subjects at the University of Shkodra approved and will implement internationalization in the following three courses in accordance with the decision of this Department, which is an integral part of the Faculty of the Natural Sciences.

- Fundamentals of Nursing
- Medical Terminology Program
- Normal Human Anatomy

The professors involved in teaching process of these courses in English contributed to this activity. The key aspects of the internationalization of the curriculum were the English language, internationalized student learning outcomes, internationalized content, internationalized teaching and learning activities and internationalized assessment methods.

The main reason for the internationalization of these courses is inline with the Internationalisation Strategy of Shkodra University and Department of Para Clinical subjects itself.

It is important to note that foreign students who can attend these courses will get a qualified training by the respective professors. These courses will continue to be offered in the future and guarantees the sustainability of the deliverable, as well as the internationalisation process.

The Internationalised courses are attached to this report.
